

We need your signature

We'd like you to be able to handle all of your transactions online, but there will still be times when we'll need a signature from you, including:

- When you send a request to us by post
- For some transactions you carry out in a store

We may not be able carry out these types of requests, and others, if we don't have a copy of your signature on our records.

So that we can verify your signature, please complete your details and return this form to us using the pre-paid envelope provided.
